Summer Vacation is a time for the children to enjoy and relax. These days are precious and valuable and can be made most from if judiciously used. We should always remind ourselves that children will not remember us for the gifts we shower upon them but will always cherish the time we spent with them. It's time to nurture young minds, inculcate moral values and narrate family anecdotes to keep them in touch with their roots.

- Encourage your child to cultivate the reading habit.
- Converse regularly with the child, preferably in English.
- Encourage your child to take up yoga or any other form of healthy activity during the vacation.
- Involve children in household chores.
- Enjoy walking with them in parks and appreciate the beauty of nature.

# Few tips to make the vacation a fruitful time for your child. LEARNING BY DOING

- Arranging the bag according to the time table.
- Wearing school uniform and taking care of belongings.
- Polishing shoes and tying shoe laces.
- Memorize home address and mobile number of parents.
- Keep surroundings clean and things well organized.
- Spend quality time with grandparents and make them feel important.
- Use magic words like thank you, please, sorry and excuse me quite often.
